	Indicator releases	pages 1-11,1-15,1-20
Access Control:	Electric releases, magnets etc	Section 8

Enabling Hardware

Facility Indicator Bolt

The surface mounted facility indicator bolt is suitable for use on open in, open out or sliding doors providing a large easy operate lever and a clear red/white occupancy signal.

It can be fitted to either cubical or flush panel doors

The locking bolt fits directly to the handle at 90 degrees
Handle position clearly indicates the lock position to the occupant

Please state handling required: Photograph shows Left hand.
